@kippis.in

New Nordic & Baltic or Northern European, might be the distinguishing food trend of the 21st century, but this trend has been a long time coming.

The cooking is also a unique melding of traditional techniques and modern values, to a degree that perhaps isn't as obvious in other cuisines from around the world. But defining the cuisine as a whole is no easy feat, with many cultural elements at play.

The Dishes Reflect Diverse tastes that Cross Borders and Oceans...
